If a child is having difficulty blending 4 sounds, try using all of the books with 3 sounds first. The suggested order is in the numbers in the stars. If any are still particularly difficult, move them to the end, e.g. orig. 15, 20, 23 (all/most words have 4 sounds, "ft" tricky), orig.3 ("rats" is unusual).

Use whatever order is best for your child. Just check that they know the sounds of the letters in each book. If you use the alternative order, keep them as two sets - red stars and blue stars.
